

Warbands
travel to the City
of the Damned from
all over the Old World.
They come from many races
and for many reasons but
ultimately they must all face the
dangers of the dim alleys and twisting,
winding streets of Mordheim.

Although it is great fun to fight individual battles, part of the challenge of Mordheim is to build your warband into a force to be reckoned with. A campaign gives your warband the chance to gain experience and new skills, as well as the opportunity to hire extra warriors as its fame and fortune increases.

starting a campaign

To start a campaign you'll need at least two players, preferably three or more. Players may have more than one warband, but most people prefer to run one at a time, as this allows them to devote more of their attention to painting, modelling and playing with their favourite warband.

You can start a campaign as soon as two players have recruited their warbands. New players can join the campaign any time after that. Although the new warbands will be less experienced they will soon learn new skills. Fighting other, more powerful, warbands will allow them to develop more quickly.

playing a campaign game

To start the campaign, the two players select one of the scenarios to fight (see the Scenarios section). At the end of each game the players work out how much experience their warriors have earned and how much wyrdstone the warband has collected before returning to its encampment.

Experience is expressed as Experience points which Heroes and Henchmen groups receive for surviving each game. This is covered later in the Experience section. When a Hero or a group of Henchmen has sufficient Experience points they receive an *advance*. An advance might improve a warrior's characteristics profile, adding to his WS, BS, S etc, or he might gain a special skill such as *Mighty Blow* or *Acrobat*.

After each game the warriors collect wyrdstone. This is recorded on the warband's roster sheet, and can later be sold for gold, used for trading, etc. You can recruit more warriors or buy new weapons from traders. All this is explained in the Income and Trading sections, later.

warband rating

Each warband has a *warband rating* – the higher the rating the better the warband. The warband rating is simply the number of warriors in it multiplied by 5, plus their accumulated experience.

Large creatures such as Rat Ogres are worth 20 points plus the number of Experience points they have accumulated.

The warband's rating changes after each game, because surviving warriors will gain extra experience, warriors may have been killed, new ones added, etc. Hopefully your warband rating will go up, signifying your increase in power!

post battle sequence

After the battle is over, both players work their way through the following sequence. You do not have to work through it all at once (try to do the first three parts straight after the battle – you may wish to consider further purchases later) but any dice rolls must be seen by both players or a neutral third party.

- 1 **Injuries.** Determine the extent of injuries for each warrior who is *out of action* at the end of the game. See the Serious Injuries, on page 102.
- 2 **Allocate experience.** Heroes and Henchmen groups gain experience for surviving battles. See the Experience and Scenarios sections for details.
- 3 **Roll on the Exploration chart.** See the Income section for details.
- 4 **Sell Wyrdstone.** This can only be done once per post battle sequence.
- 5 **Check available veterans.** Roll to see how much Experience worth of veterans is available for hire. You don't have to commit to hiring any at this point.
- 6 **Make rarity rolls and buy rare items.** Make rolls for any rare items you intend to buy and pay for them. These items go into the warband's stash.
- 7 **Look for Dramatis Personae.** If you want to hire any.
- 8 **Hire new recruits & buy common items.** New recruits come equipped with their free dagger and may be bought common items. This is done in any order and may be done several times. Note that newly hired recruits cannot buy rare items. They can, however, be equipped with rare items if there are any in the warband's stash in stage 9.
- 9 **Reallocate equipment.** Swap equipment between models as desired (provided they are eligible to use it).
- 10 **Update your warband rating.** You are now ready to fight again.

Disbanding warbands

You may disband your old warband at the end of any game and start again with a new one. All the warriors in the original warband and any equipment and other benefits they acquired are lost. You can also dismiss any warrior in your warband at any time.

Death of a warrior

When a warrior is killed (Hero or Henchman) all his weapons and equipment are lost. This is very important, so be clear about it from the start. It is not possible to reallocate a warrior's weapons or equipment once he is dead.

Death of a leader

If the leader of the warband is slain, the Hero with the next highest Leadership value takes command. He then gains the Leader ability (although he must continue to use his original Skill list) and can use the Equipment list available to the leader. If there is more than one Hero eligible to assume command, the warrior with the most Experience points becomes the leader. In the case of a tie roll a D6 to decide the new leader. Note that you may **not** hire a new leader for your warband.

In the case of Undead warbands, the death of the Vampire means that the warband's Necromancer must take over. If the warband doesn't include one, the spells that hold the restless dead together unravel, and the warband collapses into a pile of bones. You **can** buy a Vampire after the next game, at which point the Necromancer will step down (whether he wants to or not) and lose the Leader skill.

If the leader of a Sisters of Sigmar, Possessed or Carnival of Chaos warband dies then their successor will be entitled to learn to use magic in their stead. The new leader may choose a prayer/spell from the appropriate list, instead of rolling on the Advance table, the first time they are eligible for an advance. After this they are considered to be a wizard/use prayers as appropriate for their warband and use the Advance table as normal.

buying new equipment between games

As explained in the Trading section, warriors may purchase new equipment and armaments using the warband's treasury. Warriors can also swap equipment between themselves. Alternatively, old equipment can be hoarded and re-used at a later date.

Weapons and armour purchased, swapped or taken from storage for your warband must be of an appropriate type for the warrior, as indicated by the warband lists. Record any changes to the warrior's equipment on the roster sheet.

serious injuries

During a game some warriors will be taken *out of action* and removed from play. At that time it doesn't matter whether the warrior is dead, unconscious, injured or just playing dead – in game terms he is no longer capable of fighting in the battle which is all that matters.

When you are playing a campaign it matters a great deal what happens to warriors who are taken *out of action*! They might recover completely and be ready to fight in the next battle, or they might have sustained injuries. Worst of all they might die, or be so badly injured that they have to retire.

When a Henchman receives a serious injury this is treated differently than if a Hero received one (this is to represent the greater effect that losing a Hero would have on your warband). Working out the extent of a Henchman's injuries is very simple. You will need to roll on the chart opposite to determine what has happened to your Hero. The chart covers a whole range of injuries and random things that might befall your warrior. Bear in mind that only Heroes who are taken *out of action* are obliged to roll on this chart.

HENCHMEN WITH SERIOUS INJURIES

Henchmen who are *out of action* at the end of the battle are removed permanently from the roster sheet on a D6 roll of 1-2. They have either suffered severe injuries, died of their wounds, or decided to quit the warband. On a roll of 3-6 they can fight in the next battle as normal.

HEROES WITH SERIOUS INJURIES

After a battle some of your Heroes may be taken *out of action*.

You will need to determine the extent of their injuries before the next game.

To use the Heroes' Serious Injuries chart opposite, roll two D6.

The first dice roll represents 'tens' and the second 'units', so that a roll of 1 and 5 is 15, a roll of 3 and 6 is 36, etc. This type of dice roll is referred to as a 'D66 roll'.

Heroes' serious injuries chart (roll D66)

11-15 DEAD

The warrior is dead and his body is abandoned in the dark alleys of Mordheim, never to be found again. All the weapons and equipment he carried are lost. Remove him from the warband's roster.

16-21 MULTIPLE INJURIES

The warrior is not dead but has suffered a lot of wounds. Roll D6 times on this table. Re-roll any 'Dead', 'Captured' and further 'Multiple Injuries' results.

22 LEG WOUND

The warrior's leg is broken. He suffers a -1 Movement characteristic penalty from now on.

23 ARM WOUND

Roll again: 1 = Severe arm wound. The arm must be amputated. The warrior may only use a single one-handed weapon from now on. 2-6 = Light wound. The warrior must miss the next game.

24 MADNESS

Roll a D6. On a 1-3 the warrior suffers from *stupidity*; on 4-6 the warrior suffers from *frenzy* from now on (see the Psychology section for details).

25 SMASHED LEG

Roll again: 1 = The warrior may not run any more but he may still charge. 2-6 = The warrior misses the next game.

26 CHEST WOUND

The warrior has been badly wounded in the chest. He recovers but is weakened by the injury so his Toughness is reduced by -1.

31 BLINDED IN ONE EYE

The warrior survives but loses the sight in one eye; randomly determine which. A character that loses an eye has his Ballistic Skill reduced by -1. If the warrior is subsequently blinded in his remaining good eye he must retire from the warband.

32 OLD BATTLE WOUND

The warrior survives, but his wound will prevent him from fighting if you roll a 1 on a D6 at the start of any battle. Roll at the start of each battle from now on.

33 NERVOUS CONDITION

The warrior's nervous system has been damaged. His Initiative is permanently reduced by -1.

34 HAND INJURY

The warrior's hand is badly injured. His Weapon Skill is permanently reduced by -1.

35 DEEP WOUND

The warrior has suffered a serious wound and must miss the next D3 games while he is recovering. He may do nothing at all while recovering.

36 ROBBED

The warrior manages to escape, but all his weapons, armour and equipment are lost.

41-55 FULL RECOVERY

The warrior has been knocked unconscious, or suffers a light wound from which he makes a full recovery.

56 BITTER ENMITY

The warrior makes a full physical recovery, but is psychologically scarred by his experience. From now on the warrior *bates* the following (roll a D6):

D6 Result

- 1-3 The individual who caused the injury. If it was a Henchman, he hates the enemy leader instead.
- 4 The leader of the warband that caused the injury.
- 5 The entire warband of the warrior responsible for the injury.
- 6 All warbands of that type.

61 CAPTURED

The warrior regains consciousness and finds himself held captive by the other warband.

He may be ransomed at a price set by the captor or exchanged for one of their warband who is being held captive.

Captives may be sold to slavers at a price of D6x5 gc. Undead may kill their captive and gain a new Zombie. The Possessed may sacrifice the prisoner. The leader of the warband will gain +1 Experience if they do so. Captives who are exchanged or ransomed retain all their weapons, armour and equipment; if captives are sold, killed or turned to Zombies, their weaponry, etc, is retained by their captors.

62-63 HARDENED

The warrior survives and becomes inured to the horrors of Mordheim. From now on he is immune to *fear*.

64 HORRIBLE SCARS

The warrior causes *fear* from now on.

65 SOLD TO THE PITS

The warrior wakes up in the infamous fighting pits of Cutthroat's Haven and must fight against a Pit Fighter. See the Hired Swords section for full rules for Pit Fighters.

Roll to see which side charges, and fight the battle as normal. If the warrior loses, roll to see whether he is dead or injured (ie, a D66 roll of 11-35). If he is not dead, he is thrown out of the fighting pits without his armour and weapons and may re-join his warband.

If the warrior wins he gains 50 gc, +2 Experience and is free to rejoin his warband with all his weapons and equipment.

66 SURVIVES AGAINST THE ODDS

The warrior survives and rejoins his warband. He gains +1 Experience.

As warriors take part in battles, those who survive become more experienced, and improve their battle skills. This is represented in campaigns by *Experience points*.

Warriors earn Experience points when they take part in a battle. Once a warrior has enough points he gains an *advance*. This takes the form of an increased characteristic or a new skill. Warriors who survive long enough may progress to become great Heroes, with many skills that they have picked up during their long and glorious fighting career.

starting experience

When warriors are recruited, some of them already have some experience. The warband lists detail how many Experience points different warriors begin with. Record these on your warband roster sheet by ticking the right number of boxes. No extra advances are gained for this experience. It simply represents the experience the warriors have accumulated before the warband is formed.

Gaining experience

The Experience points warriors earn depend on the scenario. Different scenarios have different objectives and consequently warriors can earn experience in slightly different ways.

Experience points are always added to the fighter's total after the game is over, though it is a good idea to keep a record of the experience your warrior gains *out of action* during the battle, as this often affects the experience they gain *in action*.

Through the scenarios you will notice that warriors always earn +1 Experience point for surviving a battle. They earn this even if they are injured so long as they survive to fight again! Ce point d'expérience est gagné même s'ils sont blessés, à condition qu'ils survivent et qu'ils puissent combattre à nouveau!

Le chapitre *Scénarios* précise les points d'expérience gagnés pour différents scénarios.

experience advances

As warriors earn more Experience points they are entitled to make *progressions* on their warband roster sheet.

It shows how much experience a Hero or a Henchman group must accumulate before making a further roll. When a Henchman has accumulated experience, mark a box that has a thick border, the warrior may make an Advance roll. The roll(s) must be taken immediately after the game in which the advance was earned while both players are present to witness the result. Note that Henchmen gain experience as a group, and consequently all the warriors in a group gain the same advance.

underdogs Challengers

When a warband fights against an enemy warband with a higher rating, its warriors earn extra Experience points as shown on the table below. The higher the opposing warband's rating, the more points the underdog earns.

Difference in

Warband rating

Experience Bonus

0-50	None
51-75	+1
76-100	+2
101-150	+3
151-300	+4
301+	+5

advance rolls

Make Advance rolls straight after the battle so both players can witness the result. Roll 2D6 and consult the appropriate tables below.

Heroes

- 2D6 Result**
- 2-5 New Skill.** Select one of the Skill tables available to the Hero and pick a skill. If he is a wizard he may choose to randomly generate a new spell instead of a skill. See the Magic section.
- 6 Characteristic Increase.**
Roll again: 1-3 = +1 Strength; 4-6 = +1 Attack.
- 7 Characteristic Increase.**
Choose either +1 WS or +1 BS.
- 8 Characteristic Increase.**
Roll again: 1-3 = +1 Initiative;
4-6 = +1 Leadership.
- 9 Characteristic Increase.**
Roll again: 1-3 = +1 Wound;
4-6 = +1 Toughness.
- 10-12 New Skill.** Select one of the Skill tables available to the Hero and pick a skill. If he is a wizard he may choose to randomly generate a new spell instead of a skill.

Henchmen

Henchmen never add more than +1 point to any of their initial characteristics. If the dice roll indicates an increase in a characteristic which has already been increased (or is at its racial maximum), roll again until an unincreased characteristic is rolled. All warriors in the group gain the same advance.

2D6 Result

- 2-4 Advance.** +1 Initiative.
- 5 Advance.** +1 Strength.
- 6-7 Advance.** Choose either +1 BS or +1WS.
- 8 Advance.** +1 Attack.
- 9 Advance.** +1 Leadership.
- 10-12 The lad's got talent.** One model in the group becomes a Hero. If you already have the maximum number of Heroes, roll again. The new Hero remains the same Henchman type (eg, a Ghoul stays as a Ghoul) and starts with the same experience the Henchman had, with all his characteristic increases intact. You may choose two skill lists available to Heroes in your warband. These are the skill types your new Hero can choose from when he gains new skills. He can immediately make one roll on the Heroes Advance table. The remaining members of the Henchmen group, if any, roll again for the advance that they have earned, re-rolling any results of 10-12.

new skills

There are several types of skill and each has a separate list. You may not choose the same skill twice for the same warrior. The skills a Hero may have are restricted by the warband he belongs to and what type of Hero he is.

To select a new skill for a Hero, pick the type of skill you want from those available, then choose which skill has been learned.

characteristic increase

Characteristics for certain warriors may not be increased beyond the maximum limits shown on the following profiles. If a characteristic is at its maximum, take the other option or roll again if you can only increase one characteristic. If both are already at their racial maximum, you may increase any other (that is not already at its racial maximum) by +1 instead. Note that this is the only way to gain the maximum Movement for some races. Remember that Henchmen can only add +1 to any characteristic.

HUMAN (Witch Hunters, Flagellants, Mercenaries, Dregs, Freelancers, Warlocks, Pit Fighters, Magisters, Darksouls, Mutants, Brethren, Warrior Priests, Zealots, Sisters of Sigmar, etc.)

Profile	M	WS	BS	S	T	W	I	A	Ld

Skill lists

The Skill lists are used to pick skills earned as advances. Your warrior is restricted to specific Skill lists depending upon his warband type and what kind of warrior he is. Each warband entry includes a list of skills available to the Heroes of that particular warband.

All warbands have their own strengths and weaknesses which relate to the skills available to them. For example, the Possessed are good fighters and very strong, but they are not very academically minded.

Some warbands also have access to a unique Skill list, which is clearly indicated in their entry.

combat skills

Strike to Injure. The warrior can land his blows with uncanny accuracy. Add +1 to all injury rolls caused by the model in hand-to-hand combat.

Combat Master. The warrior is able to take on several opponents at once. If he fights against more than one enemy at a time, he gains an extra Attack in each hand-to-hand combat phase as long as he is fighting two or more enemy models. In addition, the warrior is immune to 'All Alone' tests.

Weapons Training. A warrior with this skill is adept at using many different weapons. He may use any hand-to-hand combat weapon he comes across, not just those in his equipment options.

Web of Steel. Few can match the ability of this warrior. He fights with great skill, weaving a web of steel around him. The model gains +1 to all his rolls on Critical Hit tables in hand-to-hand combat.

Expert Swordsman. This warrior has been expertly taught in the art of swordsmanship. He may re-roll all missed attacks if he is using a sword in the hand-to-hand phase of the turn that he charges. Note that this only applies when they are armed with normal swords or weeping blades, and not with double-handed swords or any other weapons.

Step Aside. The warrior has a natural ability to avoid injury in combat. Each time he suffers a wound in close combat he may make an additional saving throw of 5+. This save is never modified and is taken after all other armour saves.

shooting skills

Quick Shot. The warrior may shoot twice per turn with a bow or crossbow (but not a crossbow pistol).

Pistolier. The warrior is an expert at using all kinds of pistols. If he is equipped with a brace of pistols of any type (including crossbow pistols), he may fire twice in the Shooting phase (though note that normal reloading rules apply). If he has a single pistol then he may fire it in the same turn it was reloaded.

Eagle Eyes. The warrior's sight is exceptionally keen. He adds +6" to the range of any missile weapon he is using.

Weapons Expert. The warrior has been trained to use some of the more unusual weapons of the known world. He may use any missile weapon he comes across, not just the weapons available from his warband's list.

Nimble. The warrior may move and fire with weapons that are normally only used if the firer has not moved. Note that this skill cannot be combined with the Quick Shot skill.

Trick Shooter. The warrior can shoot through the tiniest gap without it affecting his aim. He ignores all modifiers for cover when using missile weapons.

Hunter. The warrior is an expert at getting his weapon loaded and ready. He may fire each turn with a handgun or Hochland long rifle.

Knife-Fighter. The warrior is an unrivalled expert at using throwing knives and throwing stars. He can throw a maximum of three of these missiles in his shooting phase and may divide his shots between any targets within range as he wishes. Note that this skill cannot be combined with the Quick Shot skill.

academic skills

Battle Tongue. This skill may only be chosen by a leader. The warrior has drilled his warband to follow short barked commands. This increases the range of his Leader ability by 6". Note that Undead leaders may not use this skill.

Sorcery. This skill may only be taken by Heroes capable of casting spells. A warrior with this skill gains +1 to his rolls to see whether he can cast spells successfully or not. Note that Sisters of Sigmar and Warrior-Priests may not use this skill.

Streetwise. A warrior with this skill has good contacts and knows where to purchase rare items. He may add +2 to the roll that determines his chances of finding such items (see the *Trading* section).

Haggle. The warrior knows all the tricks of bargaining and haggling. He may deduct 2D6 gold crowns from the price of any single item (to a minimum cost of 1gc) once per post battle sequence.

Arcane Lore. Witch Hunters, Sisters of Sigmar and Warrior-Priests may not have this skill. Any warrior with this skill may learn Lesser Magic if he owns a Tome of Magic.

Wyrdstone Hunter. The warrior has an uncanny ability to find hidden shards of wyrdstone. If a Hero with this skill is searching the ruins in the exploration phase you may re-roll one dice when rolling on the Exploration chart. The second result stands.

Warrior Wizard. This skill may only be taken by spellcasters. The mental powers of the wizard allow him to wear armour and cast spells.

strength skills

Mighty Blow. The warrior knows how to use his strength to maximum effect and has a +1 Strength bonus in close combat (excluding pistols). As his Strength is used for close combat weapons, the bonus applies to all such weapons.

Pit Fighter. The warrior has learned how to fight in enclosed spaces from his time in the dangerous fighting pits of the Empire. He is an expert at fighting in confined areas and adds +1 to his WS and +1 to his Attacks if he is fighting inside buildings or ruins. It's a good idea to define which bits of your terrain collection count as 'buildings or ruins' at the start of a battle to avoid confusion later.

Resilient. The warrior is covered in battle scars. Deduct -1 Strength from all hits against him in close combat. This does not affect armour save modifiers.

Fearsome. Such is the reputation and physique of the model that he causes *fear* in opposing models.

Strongman. The warrior is capable of great feats of strength. He may use a double-handed weapon without the usual penalty of always striking last. Work out order of battle as you would with other weapons.

Unstoppable Charge. When he charges, the warrior is almost impossible to halt. He adds +1 to his Weapon Skill when charging.

speed skills

Leap. The warrior may leap D6" in the movement phase in addition to his normal movement. He may move and leap, run and leap, or charge and leap, but he can only leap once per turn.

A leaping warrior may jump over opposing man-sized models, including enemies, and obstacles 1" high, without penalty.

The leap may also be used to leap over gaps, but in this case you must commit the warrior to making the leap before rolling the dice to see how far he jumps. If he fails to make it all the way across, he falls through the gap (see page 28).

Sprint. The warrior may triple his Movement rate when he runs or charges, rather than doubling it as normal.

Acrobat. The warrior is incredibly supple and agile. He may fall or jump from a height of up to 12" without taking any damage if he passes a single Initiative test, and can re-roll failed Diving Charge rolls. He can still only make a diving charge from a height of up to 6".

Lightning Reflexes. If the warrior is charged he will 'strike first' against those that charged that turn. As the charger(s) will also normally 'strike first' (for charging), the order of attack between the charger(s) and the warrior with this skill will be determined by comparing Initiative values.

Jump Up. The warrior can regain his footing in an instant, springing to his feet immediately if he is *knocked down*. The warrior may ignore *knocked down* results when rolling for injuries, unless he is *knocked down* because of a successful save from wearing a helmet or because he has the No Pain special rule.

Dodge. A warrior with this skill is nimble and as fast as quicksilver. He can avoid any hits from a missile weapon on a D6 roll of 5+. Note that this roll is taken against missiles as soon as a hit is scored to see whether the warrior dodges it or not, before rolling to wound, and before any effects from other skills or equipment (such as lucky charms).

Scale Sheer Surfaces. A warrior with this skill can scale even the highest wall or fence with ease. He can climb up or down a height equal to twice his normal Movement, and does not need to make Initiative tests when doing so.
